Why SnapNow Will Succeed

1

Specialization Beats Generalization

Snappr does weddings, products, headshots, real estate - they're spread thin. We focus exclusively on travel photography and do it exceptionally well.

2

Better Photographer Experience

Photographers frustrated with Snappr's low rates will prefer a platform that values quality. Higher rates = better photographers = better customer experience.

3

Integrated Value Chain

Photo editing as a service creates additional revenue and differentiates us. Customers get polished, Instagram-ready photos without going elsewhere.

4

Geographic Focus

Starting in UK/Europe where competition is lower, then expanding. Better to dominate one market than fight for scraps in a crowded one.
